

Budget description (if applicable):

5. Relationship to Other Initiatives

a. Does this project implement an existing study or plan for the community?

Yes No

If yes, please share the name of the study or plan and a link if it's available online.

b. Is this project a continuation of a previously funded CDBG project? Yes No

If yes, what is the name and year of the project?

6. Qualification:

a. Does the project benefit a low to moderate income area of the community?

Yes No

This can be measured by the actual people benefiting from the project/program or by the census block group area being served.

To qualify, at least 51% of the persons benefiting from this project must have incomes of 80% or less of the area median income. Currently, this is \$69,050 per year for a household of four people.

b. Please list the census tract number(s) and block group(s) that benefit from this project:

Link to map to determine LMI for each census block group in project area:

[hud.opendata.arcgis.com/datasets/c5fb10b8f3b44affaaf686bde7d35a91_0?geometry=-84.508%2C39.228%2C-84.400%2C39.251](http://hudgis-)

The US Bureau of the Census no longer administers a long form census; this means that they lost the ability to track block group data. If census tract data does not show 51% low to moderate income residents, a local survey can be administered.

c. Do you anticipate having to collect local survey data? Yes No

d. Does the project assist senior citizens, persons with disabilities or make accessibility changes to a building? Yes No

If yes, please explain:

7. Need and Priority:

Briefly explain why this project is a priority need for your community:
