

***Golf Manor (4/30/2021)*** – The Village is moving forward this Spring with a construction project to renovate the entire length of Vera Avenue, the western service drive (between Vera and Losantiville), and Elbrook Avenue from Losantiville to the Amberley corporation line (Short Elbrook). The approximate start of construction is Monday, May 15, 2021. The complete project will take about 90-days, depending on weather and other unforeseen circumstances that may effect the project.

The scope of the project will include installation of new curbs on Vera and Short Elbrook. Both streets along with the western service drive will be resurfaced with new pavement. Permanent speed control devices (speed humps) will also be installed as part of the project on Vera and Short Elbrook. In addition, the Greater Cincinnati Water Works will start the project by replacing the water main on both streets as the first phase of the project.

We understand there will be inconvenience and some frustration that goes along with this project. We apologize in advance for any delays, parking issues, or other issues you may experience during the project. However, we do need your full cooperation in adhering to directions required in order to get this project completed as quickly as possible. We ask your patience and cooperation to make this happen.

The Village of Golf Manor will not directly perform any of the work. Adleta Construction has been awarded the project and will develop the construction schedule and do all of the construction work and traffic management. They will directly notify you of any parking restrictions or traffic changes needed as the various phases of the project are carried out.

We urge you to stay up-to-date on progress of the project by visiting the Village website at <https://www.golfmanoroh.gov/road-construction-projects/>.

Thanks in advance for your help and have a safe Summer!
