

**Date:** August 25, 2025

**Submitted By:** Brittney Kreimer, Chair

## **Updates:**

Executive Committee reviewed both proposals for the park master plan and approved the motion to not move forward with either at this time and use the Hamilton County Grant to fund a portion of the walking path.

We would like to eventually move to a full strategic development process that included the N. Wiehe development along with the park. This would need to be a joint effort with Community Engagement Committee on the future use of the park and the Economic Development Commission.

## **Committee Goals:**

### **Pay Equity Audit**

**Status:** Council Member Brittney Kreimer will reach out to the county for the next steps.

### **Management Audit**

**Status:** Next meeting we will be discussing the Management audit conducted by Committee Member David Fischer during an executive session.

### **Onboarding / Collaborative Tool**

**Status:** The Solicitor is working on a training for new council members. Committee Member Dr. Minna Fischer will work with the solicitor to capture the training so we have a codified document to refer back to.

The Interim Administrator has also shared information on a remote desktop which will also support the collaborative tool Dr. Fischer has been working to develop. More details to come with the new development.

## **Points for Discussion:**

Who will lead the joint strategic planning process for a Business and Park development plan (10-year strategy). Executive has moved on proposals for the park master plan, deeming a larger strategic development plan is the next step.

## **Proposed Actions:**

## **Next Steps:**
