For the Juneteenth event, we want to strengthen the community, financially empower our local businesses, & improve overall well-being.

-Melody N. Mayle, Resident

When: Friday, June 16 4-9pm

Where: Volunteer Park, 6441 Wiehe Rd.

Residents of Golf Manor are hosting our 2nd annual Juneteenth event to observe the end of slavery in the United States. There will be food, beer, music, merchandise, activities, and traditional African dance performance by Bi-Okoto! While the event is intended to celebrate the beauty of Blackness and recognize the unique challenges experienced by Black people in America, **ALL are WELCOME** to the event.

Last year's event included merchants selling apparel, art, and handmade jewelry, spiritual leaders, financial advisors, voter registration, and mental and reproductive health advocates. We're offering goods and services provided by our neighbors and sharing local resources to promote well-being.

We are still in need of vendors! If interested, please register using the QR code below, visit the Facebook event page, or email us. Thanks for your support, we look forward to seeing you and your family at the celebration!

Resident Spotlight: Melody N. Mayle

At the heart of every thriving community lies passionate advocates who seek to uplift residents.

One such advocate is longtime resident Melody N. Mayle. She is passionate about creating and supporting a community where diversity thrives and a sense of togetherness prevails. As a dedicated community organizer, Melody invests her time and commitment to Golf Manor. She partners with other residents to plan and organize events such as Food Truck Fridays and Golf Manor's annual Juneteenth celebration – a chance for our community to honor the enduring pursuit of racial justice, while fostering unity, resilience, and the collective commitment to equality and freedom.

Melody fosters meaningful conversation in local issues and inspires family-friendly and fun activities for all into our community. Melody is also currently working on developing mentorship programs for kids interested in math and engineering. We thank Melody for going above and beyond to improve our community!
