

GOLF MANOR

Does Place Matter?

A Community Health Assessment

This handout is from the Golf Manor Community Health Assessment presentation on November 21st, 2019 at 6:30 p.m.

The following topics were discussed at the presentation.

- Data Notes
- Community Context
- Assets
- Opportunities
- Community Voice
- Discussion
- Recommendations
- Next Steps

DATA NOTES

Data in the presentation and report were obtained from the following sources:

- Federal Bureau of Investigation (FBI)
- Hamilton County and Ohio Job and Family Services (JFS)
- Hamilton County Public Health (HCPH)
- Hamilton County Sheriff's Office
- Ohio Department of Education (ODE)
- Ohio Department of Health (ODH)
- Ohio Department of Public Safety (ODPS)
- U.S. Census Bureau/American Fact-Finder
- U.S. Department of Agriculture

Data is presented for different time periods and vary by indicator based on the availability of finalized data sets.

Data is presented at a community level when possible. However, there are instances in which data were not available or could not be calculated at a community level. This data includes residents from neighboring communities who share the same ZIP code(s) and/or census tract groups as your community.

HOW DO YOU KNOW SOMEONE IS LIVING IN MY COMMUNITY?

HCPH has access to the address of every injury, death, birth and reported cases of notifiable cancer or disease. These addresses are mapped to determine their exact location within Hamilton County. This allows HCPH to determine if an individual resides within your community.

DATA IS ONLY PART OF THE STORY

While death and injury data can provide a snapshot of the most severe outcomes, it does not tell the whole story. To fully understand the problem, additional sources should also be considered.

Level of Concentrated Disadvantage

**HIGH
LEVELS**

-

Source: U.S. Census Bureau/FactFinder, 2016 American Community Survey 5-Year Estimates. Concentrated Disadvantage Methodology from the Association of Maternal and Child Health Programs.

Concentrated disadvantage is an indicator that shows areas that may be at an economic disadvantage. Concentrated disadvantage is calculated using five indicators:

1. *Percent of individuals living below the poverty line*
2. *Percent of individuals on public assistance*
3. *Percent of female-headed households*
4. *Percent of the population who are unemployed*
5. *Percent of the population who are less than 18 years of age*

Concentrated disadvantage shows how the indicators interact with each other to influence the overall health of individuals living in a particular community.

ASSETS

Assets are areas or outcomes that positively impact your community. Assets were identified from a review of data and an asset and opportunity audit. Assets identified from the data are the top 10 (or less) assets that are statistically significantly better when compared to Hamilton County as a whole. Assets were identified by Hamilton County Public Health and may differ from what you see in your community.

Golf Manor

Hamilton
County

The percent of Golf Manor residents who are uninsured is 1.3 times lower than Hamilton County (2012-2016).

8%**10%**

The percent of Golf Manor children who are uninsured is 5 times lower than Hamilton County (2012-2016).

0.8%**4%**

The percentage of Golf Manor residents who are 25 years of age and older whose highest level of educational attainment is a high school graduate is 1.3 times higher than Hamilton County (2012-2016).

34%**27%**

The percent of Golf Manor residents who are a high school graduate and are living in poverty is nearly 2.4 times lower than Hamilton County (2012-2016).

17%**41%**

RECOMMENDATIONS

The following recommendations are based on the opportunities identified for your community. The corresponding WeTHRIVE! pathway or pathways are indicated to the right of each recommendation.

= **CHRONIC DISEASE PATHWAY**

= **INJURY PREVENTION PATHWAY**

= **ENVIRONMENTAL HEALTH PATHWAY**

= **SUBSTANCE USE & ABUSE PATHWAY**

= **EMERGENCY PREPAREDNESS PATHWAY**

= **SOCIAL HEALTH PATHWAY**

Recommendation

WeTHRIVE! Pathway

| | | | | | | |
|---|---|---|---|---|---|---|
| Partner with local entities to support residents in exploring further education and job opportunities. | | | |  | | |
| Identify available resources and education around financial planning for residents. | | | |  | | |
| Educate the community about renter’s rights and responsibilities by partnering with local organizations. | | | |  | | |
| Meet with Hamilton County Public Health’s Environmental Health Division to identify opportunities around maintaining healthy homes. |  | | |  | | |
| Work to link residents with independent living difficulties to resources that can help them maintain a high quality of life. |  | |  |  | | |
| Identify partnerships and develop strategies to reduce the number of motor vehicle crashes involving local residents. | | |  | | | |
| Work with groups, such as Street Rescue, to help get unwanted firearms off the streets. | | |  |  | | |
| Identify strategies to improve safety and decrease intentional injuries in Golf Manor. | | |  |  | | |
| Implement tobacco-free policies (including vaping) for all Golf Manor owned properties, including parks and event spaces, with supporting signage. |  |  | |  | | |
| Identify partnerships to increase wellness activities for all residents in Golf Manor. |  | | |  | | |
| Gather feedback from residents to help identify ways to inform and connect them to resources and opportunities available in the community around health, safety and well-being. |  |  |  |  |  |  |
| Partner with Hamilton County Environmental Services to increase the community recycling rate and educate residents on local clean-up efforts. | |  | | | | |

NEXT STEPS

This presentation is only the first step in making lasting changes for your community. The following are steps you can take to improve the health, safety and vitality of your community.

- Choose WeTHRIVE! pathway(s)
- Develop a WeTHRIVE! team
- Complete a community mapping exercise
- Conduct a pathway assessment and develop an action plan
- Implement strategies to improve the health, safety and vitality of Golf Manor
